

ANUPA TEHAN

TRAINEE SOFTWARE DEVELOPER

- Enthusiastic IT undergraduate passionate about coding, problem-solving, and driving innovation in technology. Dedicated to pushing technological boundaries and committed to continuous learning to stay at the forefront of industry advancements. Actively seeking a software engineering internship to deepen technical expertise, enhance soft skills, and contribute meaningfully to impactful projects while advancing my career path in software development.

EDUCATION

Diploma in Software Engineering

Institute of Computer Engineering Technology - ICET
February 2024 - Present

Programming Fundamentals | OOP Concepts | MySQL
| JDBC | Software Architecture | Data Structures |
DBMS

Certificate in Professional English

Aquinas College of Higher Studies March
2020 - January 2020

G.C.E Advanced Level Examination

Bandaragama Central College -Bandragama
physical Science stream

REFEREES

DR. Niroth Samarawickrama Lecturer /
Founder ICET -Institute of Computer
Engineering technology. +94 71 764 0600

Mr. Demiaand Frank Technical Lead /
Engineering Manager at Sysco Labs. +94 71 582

PROJECTS

Hotel Management System

Individual Project Nov-2024

"Designed for efficient hotel operations, this project manages room bookings, guest information, and availability in real-time. It optimizes room allocation.

- Tech Stack : Angular | SpringBoot | MySql**
- Hibernate Completed Software requirements Specification.**

Weather-App

Individual Project Oct-2024

An application that provide current weather, Temp and Cloudy for user-searched locations.

- Tech Stack : HTML | CSS | JavaScript | Bootstrap**
- OpenWeather API**

Student Management System

Individual Project Oct-2024

"Student Management System is a standalone app that simplifies student record management, enabling efficient tracking of student data and academic progress."

- Tech Stack : Html | CSS | JS | SpringBoot | MySql**
- Completed Software requirements Specification.**

SKILLS

TECHNICAL SKILLS

- Programming** - Java | C# | HTML5 | CSS | Java Script | SQL
- Frameworks** - .NET | SpringBoot | Hibernate | Bootstrap | React | Angular
- Tools** - IntelliJ IDEA | VS Code | Visual Studio | NetBeans | figma | Git Hub | Scene Builder | Postman | Agile environment (Jira Software)

EXPERIENCE

Trainee Software developer

- As a Trainee Developer at ICET, I developed user-focused features with React, Angular, and JavaScript, built dynamic table screens, resolved bugs, and managed tasks using Jira and Azure in an Agile environment.

SOFT SKILLS

- Communication Skills**
- Team Working**
- Creativity**
- Quick Self Learning**
